Priority Number: 2001-04- CN2001000114659

Abstract: The comprehensive leakage protecting socket combination is used to prevent electric shock and fire caused by missing earthing line, leakage, etc. effectively. By means of microelectronic technology, various functions are integrated into one small compact structure and the protection socket combination has electromagnetic switch. The present invention has compact structure, small volume, low cost and very low power consumption. The protection socket combination as one "soft wire conversion" type protector is suitable for used in movable electric appliances.
